**About The Club World Awards**

The Club World Awards honor the clubbing peaks of the previous year: The parties that caused countless missed work days; the DJs who made wall flowers into dancers, and the gear that helped them do it; the systems that impressed the pros and made the patrons hang out that much longer. And most of all, the clubs themselves, which streamline the technology, the culture, the logistics and the music into perfect packages.

Nominations are selected from a pool of online submissions by the Club World editorial staff. Winners are announced at the Club World Awards ceremony each March in Miami, Florida--and are determined by an industry-expert judge's panel (kept secret until after the envelopes are sealed). The winner of the People's Choice Awards - Best DJ Set is selected by the club-going public via online voting.
